DETAILED ACTION

Applicant's arguments filed on Jan. 19, 2006 have been fully considered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13, 15, 16 and 20-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Katsumura et al. (Katsumura) (6,307,826).

Katsumura discloses a method of fabricating a device comprising exposing a part of resist layer on a substrate and applying an elective field across the resist, the direction of the field being substantially perpendicular to a plane of the resist layer during the exposing (col. 5, line 33 – col. 6, line 8). Katsumura also discloses providing a layer of conductive material (4b) of metal on a lower surface of the resist (4c) and applying elective field by connecting layer of conductive material to a fixed potential (Fig. 2B).

Allowable Subject Matter

Claims 14, and 17-19 are allowed.

Response to Arguments

Applicant argues that Katsumura does not disclose exposing with ultraviolet radiation; however, Katsumura discloses using ultraviolet radiation in col. 5, lines 45-50. Applicant also argues that Katsumura does not disclose suing a lithographic process; however, using the method

Art Unit: 2851

in a lithographic process is merely an intended use in the preamble of the claim and patentable weight is not given.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
